- Visibility of housekeeping status for Front Office staff
- Visibility of remark/request/message set by guest/front office staff
- Chamber maid assignment to rooms and daily list for chamber maids
- Maintenance work order
- Room blocking for maintenance

## Daily Operations summary from Reservation to Check-out

### Reservations

Walk-in or over the phone reservations for single or group can be done by staff instantly and online bookings are automatically updated in the system.

### Reservation Confirmation

Once the reservation details are entered by the staff, an instant confirmation email is sent to guest or hard copy can be printed in multiple formats. Automated email confirmation is sent by the system for online bookings received from website or travel websites.

### Housekeeping

Track status of all the rooms in the hotel with eZee Absolute's easy to understand GUI. Track rooms which require immediate attention and assign task to staff for quick fix pre guest arrival.

### Check-in

Upon guest's arrival, the front desk staff can easily check -in the reservation right from the main dashboard. Staff can use various filters to quickly search the guests in the system by name, group name, email, confirmation no., OTA voucher no. Etc.

### Group Handling

Easily organize all your reservations for group bookings; apply charges to the main folio or individual reservations. Assign color codes to specific groups for easy identification and assigning extra charges.

### Corporate Clients/Agents

Create special rates and discounts for corporate clients which can be easily assigned to the folio or city ledger accounts for direct billing to the company.

### Extra Charges

Predefined extra charges (inclusions) are automatically added to the room folio and other unforeseen extra charges can be added manually to the folio.

### Check-out

Upon check-out, staff can apply any additional charges to the folio and accept payment in cash or credit. Furthermore, staff can easily generate a single folio for multiple rooms and split folio for a single room.

### Reports

Generate multiple reports types and save them in various formats such as. pdf, .xls, .doc, etc. In addition, special reports can be generated for corporate clients and agents.

## Online Distribution

### Website Bookings

eZee Absolute is interfaced with eZee's Online Booking engine, allowing the system to automatically update all the bookings received from the website.

### Travel Website Bookings

eZee Absolute is interfaced with eZee's Channel Manager, allowing the system to receive bookings from all the connected OTA's and GDS channels which are automatically updated in the system.

# Cloud Computing Advantages

eZee Absolute offers the best what cloud technology has to offer at minimum costs. Below are the few of the many advantages it has to offer for your hotel and staff.

## No Capital Investment

- No capital expenditure on your end as it is a Pay-as-you-go model.
- eZee Absolute requires no special IT staff for implementation which means no investment.

## Pay-As-You-Go Model

- Minimum costs as hotel does not pay for features which are not required or use.
- Choose the most cost effective plan for your property which meets your specific requirements.

## Data Storage and Safety

- The cloud can accommodate the growing data without hotels ever worrying about running out of storage.
- Hotel's data is stored in secured servers with firewall protection and SSL encryption securing hotel's data.

## Automatic Backup

- The data is automatically backed up regularly and can be restored easily without ever worrying about loss of data.
- No physical drives required for hotels to back up the data saving IT costs.

## Automatic Software Updates

- eZee Absolute updates automatically with the latest features and enhancements.
- Never have to worry about downloading the latest Service Pack or manually checking for an update.

## Minimum down Time

- eZee Absolute is built on a architecture with multiple redundancy, giving our users minimum down time.
- With automatic failover system, eZee Absolute will naturally shift to a backup server giving you uninterrupted service without affecting your business.

## Easy Implementation

- eZee Absolute can be up and running at your hotel in a very short period as it requires no installation or any other kind of set up.
- Requires no special software or hardware upgrades in hotel saving on IT costs.

## Minimum Operating Costs

- Once the System is in place, hotels do not require any IT staff for any kind maintenance keeping hotel's costs at minimum.
- In addition, no extra software or hardware means hotel does not have to deal with hardware vendors or software providers.

## Access from Anywhere

- Only requirement a hotel has to run their operations with eZee Absolute is a Desktop PC or Laptop with Internet Connection.
- You can access the system remotely even when travelling keeping eye on the business.

## Minimum Learning Curve

- eZee Absolute is easy to learn and adapt without ever worrying about extra time spend on training.
- Users come up to speed much faster to cloud based software when compared to bloated desktop versions.
